

# Climate Restoration Resolution

- Whereas;** Humanity has an obligation to future generations to restore and maintain a safe climate in which humans have survived long-term;
- Whereas;** TOGO BUSINESS UK's mission statement is: collaborate with technical and financial partners, the Africa Diaspora, governments, Communes and organizations to create Jobs, Wealth, and Foster Prosperity in TOGO and other countries following strategic sectors such as: Health, environment, agriculture, energy, tourism and hospitality, professional and technical trainings.
- Whereas;** Current CO2 levels are already at 425 ppm and are expected to rise to 450 ppm or higher by 2050, based on current Paris Agreement estimates;
- Whereas;** The International Panel on Climate Change (IPCC) has stated that temperatures corresponding to CO2 levels of 450 ppm or above will lead to grave damage to the ecosystems;
- Whereas;** The human species has never before lived with sustained atmospheric carbon dioxide (CO2) levels above 300 ppm;
- Whereas;** Climate Restoration is the goal of reducing atmospheric CO2 levels to a pre-industrial level (at 300 ppm or below) such that when Net Zero Emissions are reached humankind will have a sustainable planet to inhabit and pass on to future generations;
- Whereas;** There is no climate justice without climate restoration because the poor are the first and most impacted by climate change;
- Whereas;** Climate Restoration will benefit the people of the world by reducing loss and damage from floods, storms, droughts, and wildfires, while producing positive effects on human and ecosystem health;

**Whereas;** The Climate Restoration Alliance connects and empowers people and organizations committed to restoring a livable climate, with carbon dioxide levels close to pre-industrial by 2050;

**Therefore;** TOGO BUSINESS UK hereby resolves to join the Climate Restoration Alliance, invite others to join as well, and take action to make Climate Restoration an idea whose time has come;

**And Also;** We call on our global leadership to adopt “*Restore and Stabilize Greenhouse Gas Levels*” as our Common Climate Goal.
