Climate Restoration Resolution

Whereas; Humanity has an obligation to future generations to restore and maintain a safe climate in which humans have survived long-term;

Whereas; FarmCom Conservation CBO's mission statement is FarmCom Conservation CBO is committed to promoting sustainable livelihoods through climate-smart agriculture, environmental conservation, climate change action, and equitable WASH services, empowering communities to build resilient, healthy, and sustainable futures while contributing to positive environmental and social transformation locally, regionally, and globally.

Whereas; Current CO2 levels are already at 425 ppm and are expected to rise to 450 ppm or higher by 2050, based on current Paris Agreement estimates;

Whereas; The International Panel on Climate Change (IPCC) has stated that temperatures corresponding to CO2 levels of 450 ppm or above will lead to grave damage to the ecosystems;

Whereas; The human species has never before lived with sustained atmospheric carbon dioxide (CO2) levels above 300 ppm;

Whereas; Significant progress is being made through global Net Zero commitments, the Paris Agreement, renewable energy expansion, and emissions reduction efforts, and these achievements are recognized and commended as essential steps in addressing the climate crisis;

In association with:

Whereas; Climate Restoration is the goal of reducing atmospheric CO2 levels to a pre-industrial level (at 300 ppm or below) such that when Net Zero emissions are reached humankind will have a sustainable planet to inhabit and pass on to future generations;

Whereas; There is no climate justice without climate restoration because the poor are the first and most impacted by climate change;

Whereas; Climate Restoration will benefit the people of the world by reducing loss and damage from floods, storms, droughts, and wildfires, while producing positive effects on human and ecosystem health;

Whereas; The Climate Restoration Alliance connects and empowers people and organizations committed to restoring a safe, pre-industrial climate by 2050;

Therefore; FarmCom Conservation CBO hereby resolves to join the Climate Restoration Global Movement, invite others to join as well, and take action to make Climate Restoration an idea whose time has come;

And Also; We call on our global leadership to adopt "*Restore and Stabilize Greenhouse Gas Levels*" as our Common Climate Goal.

And Also; Our organization agrees to have our signed resolution included on the Climate Restoration Alliance Signatories page, mutually display logos per brand guidelines, and permit the Climate Restoration Alliance to announce this partnership publicly.*

Signed:

Silas Mwambegu Kenga
Executive Director
FarmCom Conservation CBO

In association with: The CLIMATE RESTORATION ALLIANCE

*** Partnership Terms:**

- A copy of your organization's signed resolution may be posted on the Climate Resolution Alliance's Signatories/ Resolution webpage.

- The Climate Restoration Alliance and your organization agree to display each other's logo on our respective websites in a manner consistent with each organization's brand guidelines. You agree that your organization's logo (or organization name, if no logo exists) will appear on the Climate Restoration Alliance partner support page and will link to our organization's homepage. Similarly, you may place the Climate Restoration Alliance's logo on your website with a link to the Climate Restoration Alliance's homepage. This arrangement will remain in place for the duration of the partnership and logos will be removed promptly — within 30 days — should either party request it. Neither organization's logo may be used in any other context without separate written permission.

- You agree that the Climate Restoration Alliance may disseminate an announcement, press release or social media post publicizing that your organization has joined the Climate Restoration Movement as a partner.
