Climate Restoration Resolution

Whereas; Humanity has an obligation to future generations to restore and maintain a safe climate in which humans have survived long-term;

Whereas; TANZANIA ECO WARRIORS INITIATIVE's mission statement is to engage, educate, and empower local and indigenous communities in dryland areas to protect ecosystems, adapt to climate change, and create social and economic resilience.

Whereas; Current CO2 levels are already at 425 ppm and are expected to rise to 450 ppm or higher by 2050, based on current Paris Agreement estimates;

Whereas; The International Panel on Climate Change (IPCC) has stated that temperatures corresponding to CO2 levels of 450 ppm or above will lead to grave damage to the ecosystems;

Whereas; The human species has never before lived with sustained atmospheric carbon dioxide (CO2) levels above 300 ppm;

Whereas; Significant progress is being made through global Net Zero commitments, the Paris Agreement, renewable energy expansion, and emissions reduction efforts, and these achievements are recognized and commended as essential steps in addressing the climate crisis;

Whereas; Climate Restoration is the goal of reducing atmospheric CO2 levels to a pre-industrial level (at 300 ppm or below) such that when Net Zero

In association with:

emissions are reached humankind will have a sustainable planet to inhabit and pass on to future generations;

Whereas; There is no climate justice without climate restoration because the poor are the first and most impacted by climate change;

Whereas; Climate Restoration will benefit the people of the world by reducing loss and damage from floods, storms, droughts, and wildfires, while producing positive effects on human and ecosystem health;

Whereas; The Climate Restoration Alliance connects and empowers people and organizations committed to restoring a safe, pre-industrial climate by 2050;

Therefore; TANZANIA ECO WARRIORS INITIATIVE hereby resolves to join the Climate Restoration Global Movement, invite others to join as well, and take action to make Climate Restoration an idea whose time has come;

And Also; We call on our global leadership to adopt "*Restore and Stabilize Greenhouse Gas Levels*" as our Common Climate Goal.

And Also; Our organization agrees to have our signed resolution included on the Climate Restoration Alliance Signatories page, mutually display logos per brand guidelines, and permit the Climate Restoration Alliance to announce this partnership publicly.*

Signed:

NDING'A LAIZER, DIRECTOR, TANZANIA ECO WARRIORS INITIATIVE (TEWI).
